- Problem Solving

EDUCATION

12th Class / Intermediate

Avid Intermediate — Computer Science

PROFESSIONAL SUMMARY

Frontend Developer focused on building responsive, user-friendly web applications with ReactJS and modern JavaScript. Skilled in Redux Toolkit, Firebase, and reusable UI components, with a strong interest in creating clean interfaces and maintainable frontend code.

PROJECTS

LUXEWEAR — React E-commerce Web Application

- Developed a responsive clothing e-commerce interface using ReactJS and reusable components.
- Implemented Firebase Authentication and Firestore for user and profile functionality.
- Used Redux Toolkit for application state management.

Todo Application — React, Redux Toolkit & Redux Persist

- Built a task-management application with ReactJS and Redux Toolkit.
- Used Redux Persist to retain application state after page refreshes.
- Created a clean, responsive user interface.

Personal Portfolio — Frontend UI

- Developing a responsive portfolio to showcase projects, skills, and developer profile.
- Focused on clean component structure and recruiter-friendly presentation.
